Permanently protecting habitats

Working with overseas conservation partners World Land Trust uses your donations to purchase and protect critically threatened land, saving it from deforestation and linking and extending reserves.

Fighting climate change

Healthy forests are the green lungs of the planet, taking CO₂ from the atmosphere and locking it away. Saving the world's last remaining forests is a crucial way of tackling climate change head on.

Saving species

All World Land Trust projects have been selected because of their high biodiversity value. They are home to threatened wildlife large and small, and hold species yet to be discovered. Saving land can prevent extinction.

BUY AN ACRE

WHERE CRITICAL HABITATS AND ASTONISHING BIODIVERSITY CAN BE SAVED FOR JUST £100 AN ACRE

WLT has a new challenge in Mexico to save Jaguar habitat and give nesting sites to Military Macaws. More than 70 migratory species will also benefit from this protection.

Buy an Acre is World Land Trust's landmark programme which saves real acres in real places for £100 an acre. Our aim is to keep an ongoing portfolio of Buy an Acre projects, adding to them as urgent land and biodiversity protection opportunities arise for this.
