IN THE LAGUNA GRANDE RESERVE, 80% OF THE REGION'S LOWLAND FORESTS ARE BEING DEFORESTED - PRIMARILY CAUSED BY POVERTY, A RAPID POPULATION INCREASE AND THE EXPANSION OF THE AGRICULTURAL FRONTIER ACROSS THE REGION.

THIS AREA, IN CARIBBEAN GUATEMALA, IS UNDER CONSTANT THREAT AND WE NEED YOUR HELP TO RECLAIM AND PRESERVE THESE STUNNING NATURAL HABITATS, SO IMPORTANT SPECIES AND WETLANDS ARE NO LONGER AT RISK OF BEING LOST - FOREVER!
