1. I have a coat with a distinctive, unique pattern, with dark spots on an orange, tan and white coat!

2. I use a powerful, paddle-shaped tail to swim around, and can hold my breath under water for up to 20 minutes!

3. I am not poisonous, but I have toxins in my skin which leave a bad taste in the mouths of my predators!

4. I am from a large species, males like me can be over 6 meters in length!

5. I can be spotted by my striking brown wings, speckled white underbelly, light brown strips around the neck, topped off with a black crown!
