

# OPERATION OCELOT

**ON TOUR!**  
LLANGANATES-SANGAY  
CORRIDOR | ECUADOR

Did you know that the Tropical Andes is one of the most biodiverse regions on Earth - yet it's under threat from deforestation and hunting? Within this global hotspot, the Llanganates-Sangay Corridor in eastern Ecuador is home to species found nowhere else in the world. That's why Operation Ocelot's Mission Four is stepping in to help protect this extraordinary landscape and expand the reserve that supports such remarkable biodiversity. But... We can't do it alone, we need your help!

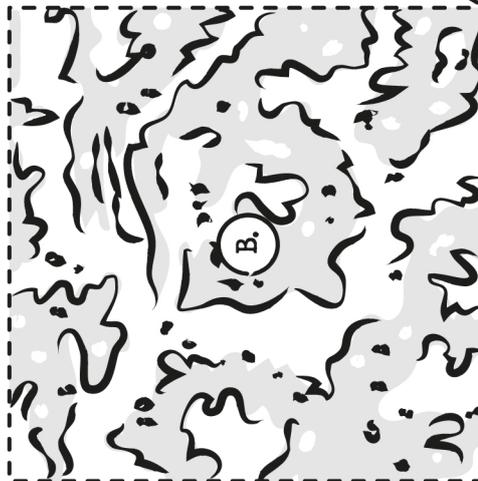

## TOP TIP!

Colour over the light grey sections in dark brown, and the white sections in a lighter brown. Remember some green spots of moss thanks to the damp climate!

## SAVE YOUR PENNIES SAVE THE PUNZAN RAINFROG!

You can become a specie 'super-saver' using your money-box, with any type of fundraising, no matter how big or small, every penny counts! Here are some ideas:

- Collect up all your small change
- Have a wildlife fancy dress day
- Hold an animal themed bake-sale
- Put on a 'Perfect Pet' photo wall competition

Every single penny helps save precious habitats around the world, homes to some of the world's most endangered species.

Thank you for collecting as much as you can
